Valeria Filipchyk

U X / U I D E S I G N E R

UX/UI designer with a graphic-design background and 6+ years crafting clear, structured, user-centred UI.

EXPERIENCE

N1 Partners

UI Designer · Nov 2022 – Present

- Design UI for mobile apps and games — components, visuals and end-to-end screens focused on clarity and usability.
- Partner with product managers and developers to translate requirements into functional, build-ready interface solutions.
- Build and maintain reusable UI components, speeding up iteration and keeping the product visually consistent.
- Adapt interfaces across devices and screen sizes without losing usability or visual coherence.

UI · Figma · Prototyping · Design Systems · Collaboration

iFactory 3D

Web & Visual Designer · Jan 2021 – Dec 2022

- Designed and shipped responsive web interfaces for B2B and e-commerce products with intuitive, accessible layouts.
- Led end-to-end design for digital campaigns and ads; produced print and digital visuals for consistent branding.
- Coordinated timelines, briefs and delivery across stakeholders (light project management).

Web Design · Responsive · B2B / E-commerce · Branding

Unisail

Graphic Designer · May 2019 – Oct 2020

- Delivered marketing and campaign visuals across digital and print channels.
- Created digital ads, social posts and outdoor signage in collaboration with vendors.
- Owned production from brief to final files; coordinated with printing houses and contractors.
